Undergraduate Research Experiences in Ecological Virology (2010) at Oklahoma State University

How do viruses shape our world?

This and similar questions are the focus of the Plant Virus Ecology Network (PVEN). PVEN is an international network coordinated at Oklahoma State University. It promotes science at the interface of virology, ecology, vector biology and epidemiology. PVEN needs motivated undergraduate students to participate in research projects.

Are you an undergraduate student with background in biology and chemistry with an interest in a research experience at the cutting edge? If so, please apply.

Qualifications: Undergraduate biology or chemistry students (>Soph.)
Stipend: $1,900/month for the equivalent of 2+months (summer or academic year; possible time frame: 15/5/10-15/8/10, negotiable)
Deadline: Positions (2) open until filled.
How to apply: Send a letter explaining interest and a copy of transcript to the address below. Also, have two letters of reference sent to the same address.

Dr. Ulrich Melcher
Dept. of Biochemistry and Molecular Biology
246 NRC, Oklahoma State University
Stillwater, OK 74078-3035
